## The 26<sup>th</sup> International Conference on Industrial, Engineering & Other Applications of Applied Intelligent Systems

(<http://iea-aie2013.few.vu.nl>)

June 17-21, 2013 Amsterdam (the Netherlands)

**Sponsored by:** International Society of Applied Intelligence (ISAI)

**Organized in cooperation with:** Association for the Advancement of Artificial Intelligence (AAAI); Association for Computing Machinery (ACM/SIGART); Austrian Association for Artificial Intelligence (ÖGAI); Catalan Association for Artificial Intelligence (ACIA); Delft University of Technology; European Neural Network Society (ENNS); International Neural Network Society (INNS); Italian Artificial Intelligence Association (AI\*IA); Japanese Society for Artificial Intelligence (JSAD); Lithuanian Computer Society -Artificial Intelligence Section (LIKS-AIS); Slovenian Artificial Intelligence Society (SLAIS); Spanish Society for Artificial Intelligence (AEPIA); Society for the Study of Artificial Intelligence and the Simulation of Behaviour (AISB); Taiwanese Association for Artificial Intelligence (TAAI); Taiwanese Association for Consumer Electronics (TACE); Texas State University-San Marcos, VU University Amsterdam.

**Scope:** IEA/AIE 2013 continues the tradition of emphasizing applications of applied intelligent systems to solve real-life problems in all areas including engineering, science, industry, automation & robotics, business & finance, medicine and biomedicine, bioinformatics, cyberspace, and human-machine interactions. IEA/AIE-2013 will include oral presentations, invited speakers, special sessions, and a doctoral consortium.

Authors are invited to submit their papers in English of up to 10 single spaced pages, presenting the results of original research or innovative practical applications relevant to the conference. Practical experiences with state-of-the-art AI methodologies are also acceptable when they reflect lessons of unique value to the conference attendees. Shorter works, up to 6 pages, to be presented in 10 minutes, may be submitted as short papers representing work in progress or suggesting possible research directions. All paper submissions will be done electronically, as indicated in the instructions on the conference web site <http://iea-aie2013.few.vu.nl/>. All papers will be peer reviewed and final copies of papers for inclusion to the conference proceedings will be published in a bound volume by Springer-Verlag (formatting instructions are available at <http://www.springer.de/comp/lncs/authors.html>) in their **Lecture Notes in Artificial Intelligence** series. Referees will be asked to nominate papers for a Best Paper Award to be announced at the conference. All papers will be automatically considered for publication in an expanded form in selected international journals.
